

CLEAN MOUNTAIN BAG

Clean Mountain Bag

RESTOP® CMB110

The RESTOP Clean Mountain Bag features a puncture-resistant, compostable 2 bag system that safely contains human waste. Our proprietary blend of super absorbent polymers and enzymes immediately gel liquids and begin breaking down the waste. Odor is contained in the containment bag. The system is user-friendly, safe, and sanitary. The Clean Mountain Bag is ideal for “pack-it-in, pack-it-out” in designated areas. Ample toilet paper and antimicrobial wipes are always included.

ADDITIONAL DETAILS

- Seals in solid and liquid waste
- Contains odors with a blend of proprietary blend of polymers and enzymes
- Holds 28 oz. of human waste
- Toilet paper and antimicrobial wipe included
- It's GREEN and meets ASTM D6400 and/or D6868 standards for plastics

SL-CMB Rev A

DEPENDABLE

Provides a thick, puncture-resistant containment bag with zip lock closure to ensure added protection from leakage and odors.

CONVENIENT

User-friendly and can be discarded into any trash receptacle. RESTOP meets state requirements for landfill disposal.

SANITARY

Waste is rendered inert and deodorized through a proprietary blend of polymers and enzymes. You'll never come in contact with any waste.
