

RS2000

Complete System

The RESTOP® Complete System includes:

- RS1: 18 Liquid Waste Bags (6 packs of 3 bags)
- RS2: 10 Solid & Liquid Waste Bags
- Commode with seat and lid
- Privacy Shelter

RESTOP® PRIVACY SHELTER: A sturdy, collapsible shelter, complete with tie down ropes, anchor stakes and shock-corded poles to pop up quickly and easily. It simply folds back down into its own small carrying bag.

RESTOP® COMMODOE BUCKET: The Commode Bucket is standard toilet sized and sturdy enough to withstand 300 lbs. of pressure over a 10 hour period. The Commode Bucket comes complete with a gamma seal secure lid and a soft foam toilet seat.

RESTOP®1 (RS1): The patented "Handle Tab" bends back to form a sturdy opening for liquid waste. The one-way valve captures 20 oz. of liquid and converts it into an odorless gel; the conversion happens through a proprietary blend of enzymes and polymers. An ample supply of toilet tissue is included with each bag.

RESTOP®2 (RS2): RESTOP®2 contains everything needed to safely dispose of human waste and eliminate its odor. Its inner bag can cover the Commode's seat for added sanitation. Waste is funneled into gelling polymers and enzymes. An ample supply of toilet tissue and an antimicrobial wipe are included for personal sanitation with each bag.
