

ITEM #: RS2-24 UPC#: 685816000750 Case Pack 24

# RS2

## Solid & Liquid Waste Bags

AVAILABLE IN RS2W  
WILDERNESS WASTE  
CONTAINMENT POUCH

- Seals in waste and contains odors
- Heavy gauge outer bag
- Toilet paper & antimicrobial wipe included
- Ten year shelf life

The RESTOP®2 utilizes a patented “bag within a bag” design to safely contain human waste. Our proprietary blend of polymers and enzymes gels immediately and begins breaking down the waste. Odor is instantly contained in the durable triple barrier bag. The system is user-friendly, safe, and sanitary. The RS2 is ideal for “pack it in, pack it out” designated areas. Ample toilet paper and antimicrobial wipes are always included.

### DEPENDABLE

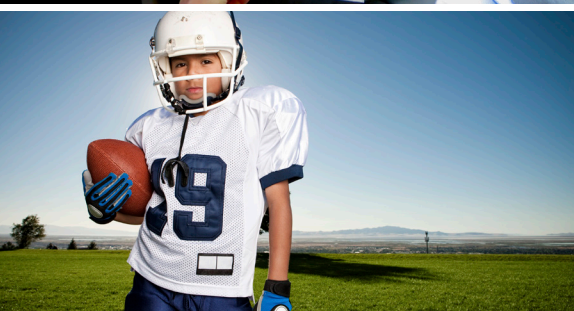

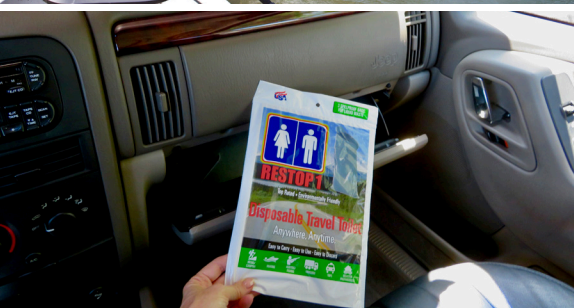

The RS2 has a triple barrier bag design and zip lock closure to ensure added protection from leakage and odors.

### CONVENIENT

The user-friendly drawstring inner waste bag easily folds into the outer bag and can then be discarded into any trash receptacle. RESTOP® meets state requirements for landfill disposal.

### SANITARY

Waste is rendered inert and deodorized through a proprietary blend of polymers and enzymes.
