

# RESTOP Shelter Systems

Available: RS500 and RS500-HS (pictured)

The RESTOP Privacy Shelter is a sturdy, collapsible tent complete with carrying case, tie down rope and anchor stakes (although you would only need those in high wind situations). Its quick connect joints allow rapid set up and breakdown in seconds. The zipper operates from the inside, just in case there are any aspiring comedians around. The opaque color of the fabric allows complete privacy, even in sunlight. The tent folds into a convenient shoulder carry case, and is easily handled by one person.

**PORTABLE** The Privacy Tent can be easily carried in its compact bag with shoulder strap.

**EASY** Quick-connect joints provide easy set-up and packing

**ADAPTABLE** The Privacy Tent can be used as a personal toilet, shower, and/or changing room.

*Comes in two configurations:*

**RS500 Privacy Shelter**  
**UPC 685816001009**

**RS500-HS Privacy Shelter with**  
**Helio Shower UPC 685816006271**
